

## Update NRA / TSRA Information

Supporting the Second Amendment is more than just gun ownership. It is the active support of those organizations that work within the Courts and State and Federal Legislature to keep the Second Amendment strong. As the result of a change in the ARPC Club ByLaws, members are now able to use membership in either the NRA or the TSRA as proof on their continued active support of the Second Amendment.

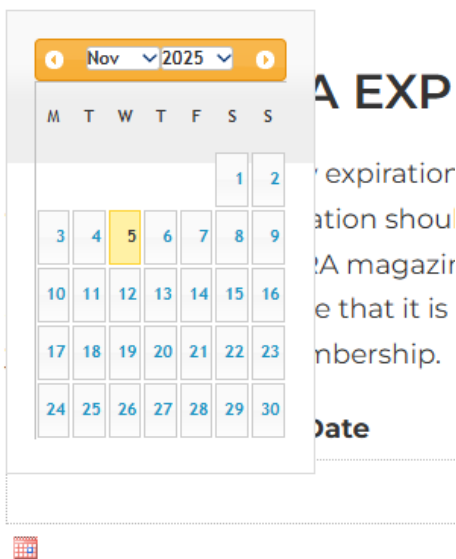

Your NRA or TSRA membership can be updated by using the **“Update NRA/TSRA Membership Status”** link on the website. Log onto the website with your Username and Password. This will land you on the Member Profile page. Next, click the “Update NRA/TSRA Membership Status” link located on the right hand side and enter the requested information.

Start by selecting the new expiration year, then the month, and finally the date. Once you click the Date, the calendar will close and the new expiration date will populate the field after a few seconds.

Next, you will need to upload a verification file. The easiest way is to take a picture of your new ID Card. This must show your name, NRA or TSRA Number, and Expiration Date. That file can be sent as any of the image file formats or as a PDF.
